

Coronavirus & Seasonal Flu Update

IMPORTANT

“In response to coronavirus and seasonal flu issues:

We recognize this is a serious situation, but do not want to panic either.

Many large events have now been postponed, reducing public gatherings – that’s the right response!

However, pain issues and being too sedentary can actually increase your odds of getting sick, so we will continue to help you in our hygienic, 1-on-1 therapy practice.

Our practice maintains the highest of hygiene standards as per the requirements of our governing body and practice registration.

We ask that any visitor to our clinic delay their treatment if:

* You have recently travelled or transited through an affected country in the last 14 days

* You have had contact with someone with Coronavirus or who is suspected of having Coronavirus (COVID-19)

AND have any of these symptoms:

- Cough
- Fever
- Shortness of breath

All that to say, we are still open and still taking patients while adding these extra cleaning and health protocols: "You can trust that you are in a safe environment."
